## INTERNATIONAL SEARCH REPORT

International application No. PCT/EG 2003/000010

CLASSIFICATION OF SUBJECT MATTER										
IPC <sup>7</sup> : A61F 2/06, 2/24										
According to International Patent Classification (IPC) or to both national classification and IPC										
B. FIELDS SEARCHED										
Minimum documentation searched (classification system followed by classification symbols)										
IPC7: A61F 2/04, 2/06, 2/24 // A61M 29/02										
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched										
Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)										
WPI, EPODOC										
C. DO	CUMENTS CONSIDERED TO BE RELEVANT									
Category	Citation of document, with indication, where appropriate,	of the relevant passages	Relevant to claim No.

## INTERNATIONAL SEARCH REPORT

International application No. PCT/EG 2003/000010

Bo	x I	(	bservations where certain claims were found unsearchable (Continuation of item 1 of first sheet)				
This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:							
1.	$\boxtimes$	ł	claims Nos.: 4 ecause they relate to subject matter not required to be searched by this Authority, namely:				
		1	claim 4 relates to the use of the stent and thus to a method for therapeutical treatment of the human or animal body according to PCT Rule 39.1 (iv) under Article 17(2)(a)(i)				
2.	×	•	Claims Nos.: 3,5,6 because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:				
			claims 3,5,6 do not refer to exactly defined technical features of a stent (" stentless design used for"; " this includes but is not limited to the different designs"; " the designs that will achieve"); according to PCT Rule 6.3 (a)(b) claims should contain technical features of the invention which are necessary for the definition of the claimed subject matter				
3	. [	]	Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).				
F	ox ]	a	Observations where unity of invention is lacking (Continuation of item 2 of first sheet)				
	IIIS		national Searching Authority found multiple inventions in this international application, as follows:				
	1. į		As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.				
	2.		As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.				
	3.	U	As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:				
	4.		No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:				
	Rei	marl	on Protest  The additional search fees were accompanied by the applicant's protest.  No protest accompanied the payment of additional search fees.
